

Our Social Responsibility

“Helping the Community Grow”

In previous years, we donated 10% of profits to educating orphans and helping old folk in the winter.

This year, we are increasing our commitment. By asking all our clients to select programs or their own charities, we pledge the first 10% of revenue to be donated to these charities.

As we continue to work with the best and brightest executives in China, it is worth remembering that even more work needs to be done to help the talent in the towns, villages and communities around China.

Contributing to the Community

Previously we donated directly to a charity of our choice. We would like to offer you the chance to select which program would mean the most to you for our contribution. Or, you can select a charity of your choice if you prefer. We are happy to support your choice. Together we are working to help make our community a better place to live.

Thank you. You are helping.

We were founded on the core belief that business is more than just profit taking. We believe a successful business must take a wider view. Our customers hire us to help them increase their confidence in communication. This offers us a chance to help our community. We believe everyone has the ability to improve their life situation and our community work aims to give more people this chance.

Our success is built on our customers. Our community's future is built on investing in today's young people. Our motto is "you get what you give." We believe that it is our responsibility to give back to the community in which we are fortunate enough to make our living.

LOVE

WITHOUT BOUNDARIES

Our Charity of the Year in China is “Love without Boundaries”, and the first 10% of all revenue is donated to help them give orphans throughout China a chance to develop their potential. www.lovewithoutboundaries.com

Education

LWB's education programmes continued to expand in 2006. Currently there are 193 children in eight provinces. Children range in age from 20 months to young adult college students.

LWB's newest education programme is at the Changde SWI in Hunan Province. Believe In Me II, its second school for children with special needs, opened in September.

In 2006 LWB sent over 100 Chinese citizens to orphanages throughout China for week-long experiences to impact the lives of children. Specialists in music, art, education, computers, English, and construction visited orphanages in Henan, Shaanxi, Jiangxi, and Guangdong to give the children a camp experience they would not soon forget. While there, the teams also helped with improvement projects such as murralling orphanage walls, building a playground and setting up computer centres for older teens.

Nutrition

LWB's nutrition program has grown steadily for the past three years. The charity now serves 11 orphanages in six provinces with supplemental nutrition and has started a Cleft Bottle Fund.

Individual nutrition sponsorships for 19 children with special nutritional needs was also established in the past year. Every three months LWB sends high quality, nutritious formula and iron-fortified rice cereal to the orphanages in its nutrition programme.

We provide the best quality formula for 15 orphanages in China.

We provide foster homes to over 300 children in China. This is one of our wonderful foster moms and her baby.

Care

“Over and over we see such wonderful progress and development in the children who are placed into loving foster homes. Because of this LWB made the decision to double its foster care program in 2006.

We now have over 300 children placed in nurturing homes in 12 cities in China. Some of our happiest moments have come when children who at first were thought to be too delayed for adoption bloomed so much under the care of 'Mama' and 'Baba' that they were then eligible for a family of their own.”
