

# Team Bonding

Explore better ways to effective communication and team bonding in the workplace

## Program Objectives

Team spirit building

Communication

Have fun

Recognition

Taking responsibility

## Target Group

Group activities

Away days

Quarterly meetings

Regional meetings

## Program Outline

### **Action Learning**

We offer a range of teambuilding, communication and leadership skills. Action learning is fun and can help your staff develop skills outside the classroom. For example:

- Model the qualities of a good manager
- Create practical coaching tools
- Creative thinking in a safe environment
- Create awareness for working cross-functionally.
- High energy team learning
- Working together

### **Methodology**

We design team building events which start with **facilitated team building**, where experienced facilitators introduce activities designed to improve team building and communication.

Once completed each activity is debriefed and the experiences of each team positively linked to their workplace.

The participants will take away a few learning points together with relaxation and enjoyment from the high energy program.

## Program Length

One to Two days

## Program Language

English and Chinese
